Information on Visa Requirements for some African countries

IMPORTANT NOTICE: While we will help to facilitate the obtaining of visas, the onus is on the traveller to ensure that all visa requirements are met. We can put you in touch with consulates and representatives in your home country.

If you are extending your journey to other countries, please establish entry conditions for those countries as well. It is vital that prior to departure, all visa requirements are met, as these cannot be obtained when you are at your destination.

It is the sole responsibility of the client to ensure that they have the required visas to visit the countries as per the itinerary. Please also be aware that certain itineraries require double entry visas, please take note of this when applying for visas.

Although some countries do supply visas at the border, we kindly request that **ALL NATIONALITIES OBTAIN THEIR VISAS IN ADVANCE** in order to avoid lengthy delays at the border.
